

Bathroom Furniture

Founded in 1917 in Gavà (Spain), near Barcelona, Roca is widely recognised as a global benchmark for the design and manufacture of contemporary bathroom products. At the heart of our business is the desire to develop beautiful and functional bathrooms that contribute to better standards of living.

We believe in simplicity, especially when it comes to bathroom furniture. Our designs are instinctive and intentional. By focusing on what's important, we bring out the beauty in the everyday. Drawing on the knowledge and expertise of our global network, as well as over 100 years of experience in the sector, we develop innovative and sustainable solutions that promise to refine your bathroom while bringing comfort and simplicity to your daily routine.

The key to our consistent growth and progressive internationalisation is our close relationship with professionals across the industry. By listening and responding to the evolving needs of society, Roca has become an established manufacturer with 79 production plants across five continents.

Quick Guide

127

Devoting time and space to personal health and wellbeing is essential to improving our quality of life. The bathroom is a private retreat where we can surrender and unwind from the pressures of modern life. Combining harmony, comfort and functionality, our furniture category aims to reflect how we feel during these intimate moments of personal connection.

Enhance Your Everyday

When it comes to designing the perfect bathroom, a healthy dose of restraint often goes a long way. If you have a small space, simple decor helps to create the illusion of spaciousness. Elegant lines and a neutral palette evoke a feeling of calm, while reducing clutter ensures easy cleaning. A careful choice of colours and materials will bring style and personality to any space, making furniture an essential feature.

We use innovative technologies to create simple and effective solutions, optimising storage capacity while stripping your bathroom down to the bare necessities. Built on the principles of flexibility and customisation, we guarantee you'll find the perfect solution to suit your needs.

Global Capacity

Located in Valencia (Spain), our new global centre for the design and production of bathroom furniture coordinates activities across Roca's seven specialised furniture plants in Spain, Poland, Czech Republic, China and Brazil. With a combined production capacity of close to two million units per year, these state-of-the-art facilities ensure we continue to meet global demand with consistent quality.

Industry 4.0

Industry 4.0 is revolutionising the way we design, manufacture and distribute our products. Based on a methodology of constant improvement, we streamline our production process and always put our people first. Equipped with the latest technologies, we continually challenge ourselves to meet new demands in efficiency and sustainability, motivated by a commitment to enhancing quotidian life.

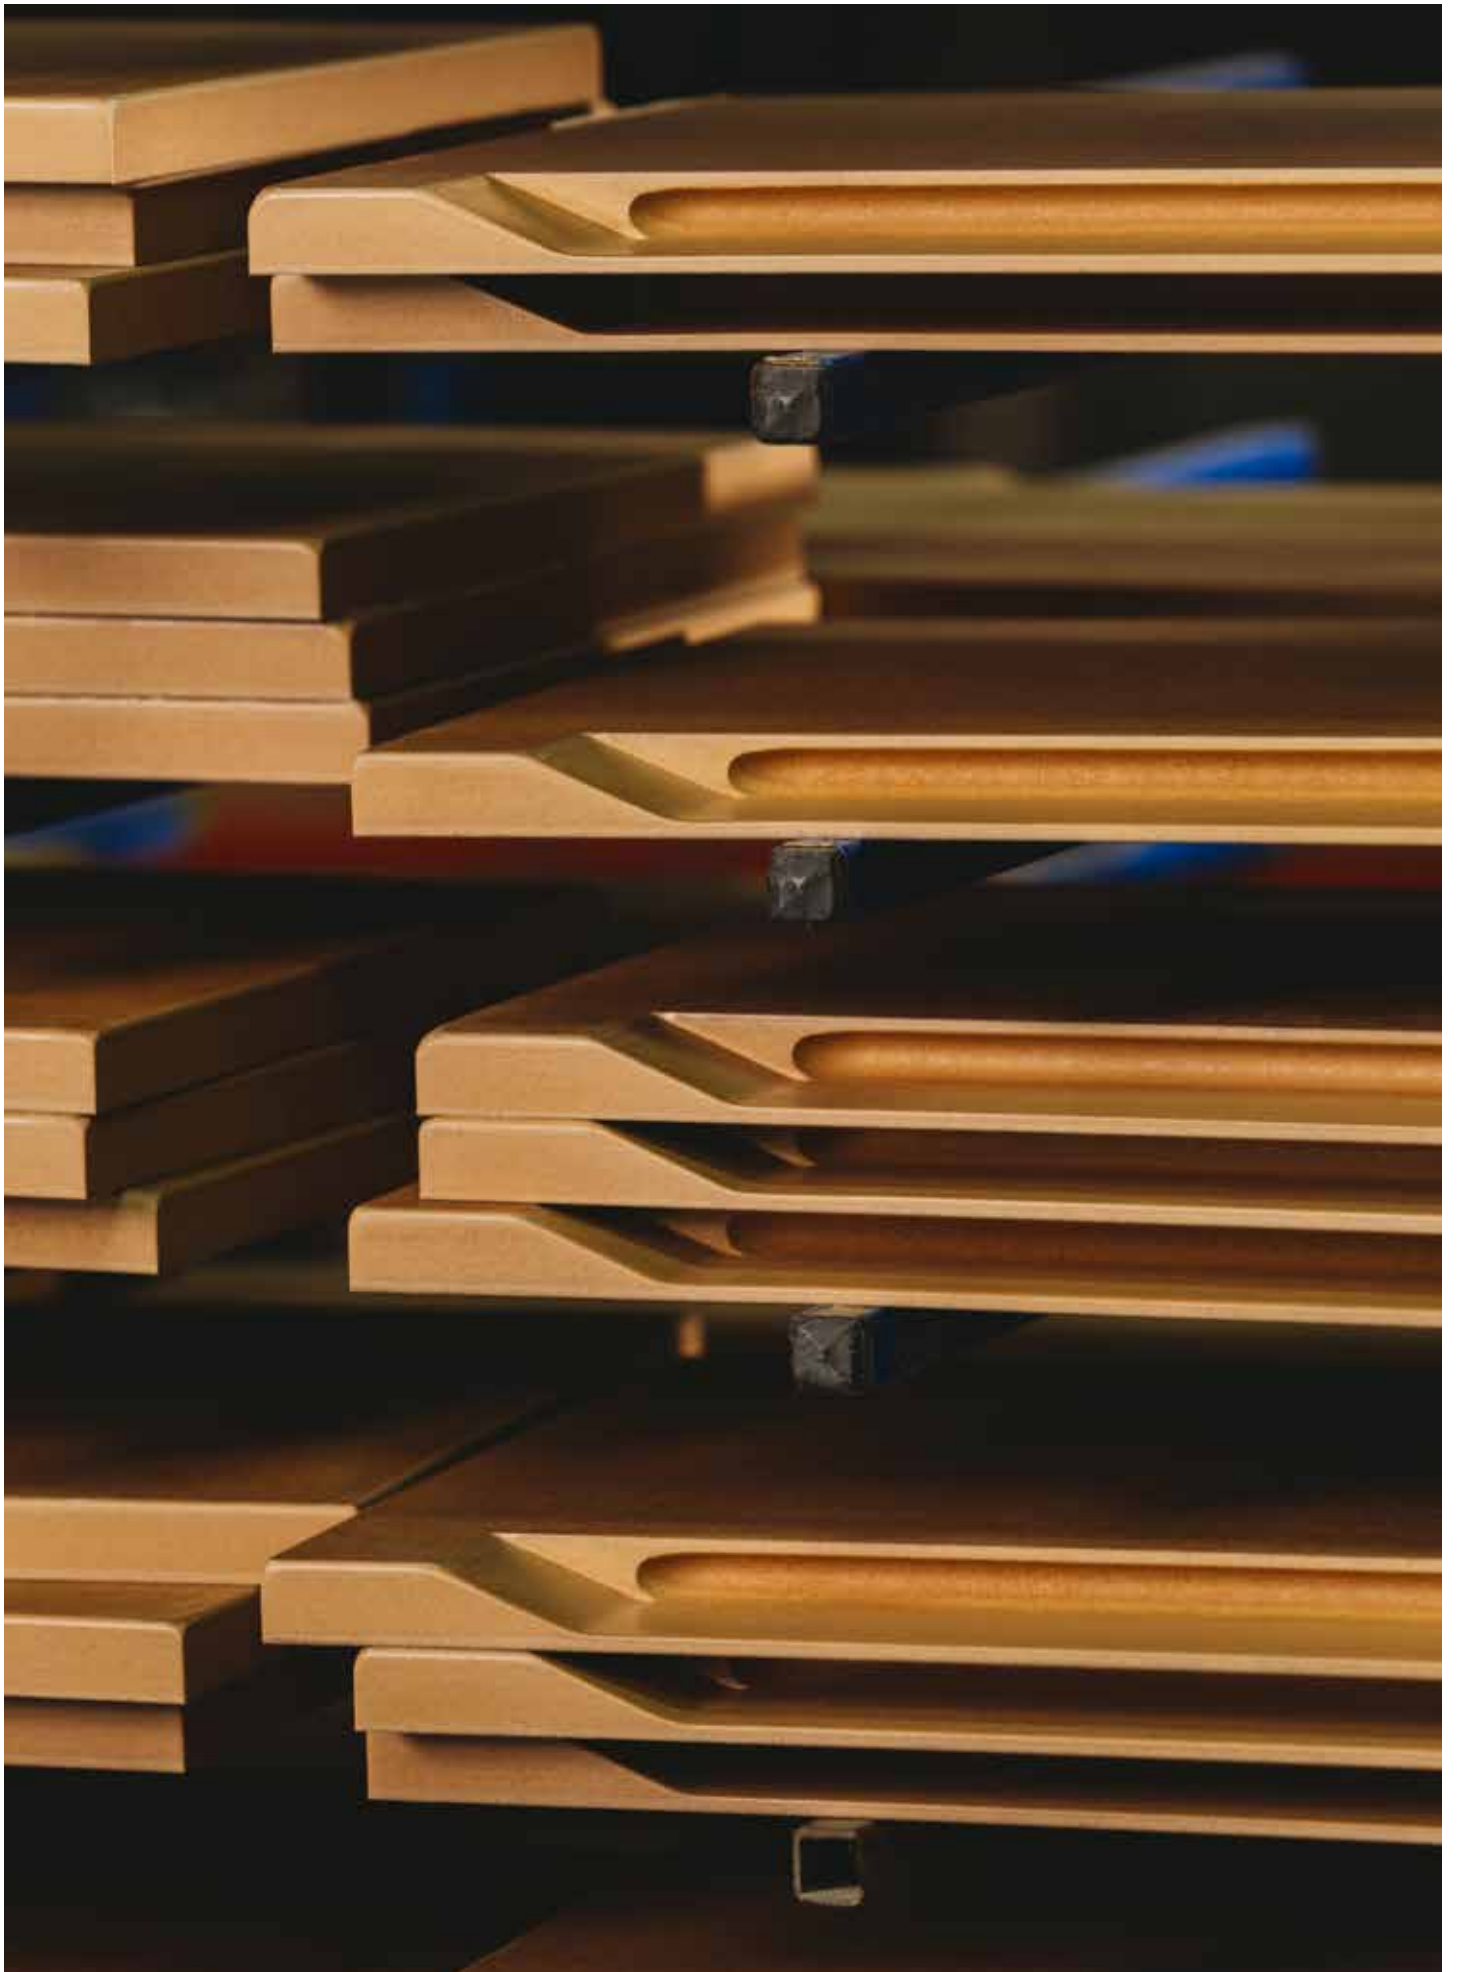

Innovation is in Our DNA

We know that our customers expect something a little different. That's why we invest in innovation and creativity to ensure each product is unique. The design team at our Innovation Centre draws on Roca's manufacturing experience and industry knowledge to continually push boundaries and pioneer authentic solutions.

Passion for Precision

Our state-of-the-art machinery and production expertise guarantee beautiful, reliable results. We offer single-colour glossy or matt lacquers in a wide chromatic range, plus a variety of wood finishes for natural warmth and character. Every piece is tested for adhesion, abrasion, scratching, humidity and exposure to light.

A Brand You Can Trust

We take our responsibility to our customers very seriously. All our furniture is well-crafted and built to last. To guarantee strength and durability, our Quality Department tests all our materials, whether manufactured or supplied, in our own laboratory.

Committed to a Better Future

We are aware of the impact our actions have on the environment. From design to logistics, we work in accordance with a comprehensive environmental policy, making it easier for our customers to make sustainable choices.

We have CARB certification on a wide selection of boards, and our packaging is developed in line with the Ecoembes waste management system. Every article we reference bears CE marking and complies with the health, safety and environmental protection standards demanded by the EU.

Bathroom Furniture

Furniture is an essential feature of any bathroom. The right choice will completely transform the look and feel of your space, while making it more functional by offering additional storage or accommodating a mounted washbasin.

We offer an extensive range of vanity units, auxiliary columns and accessories to suit all kinds of spaces, styles and requirements. Manufactured with high quality, resistant materials and complying with demanding global standards in functionality and comfort, our collections offer everything you need to furnish the perfect bathroom.

Monochrome Elegance

Volta is a sophisticated furniture and basin collection with elegantly rounded edges, a refined colour palette and versatile sizes. For a seamless look, the furniture and basins can be combined in matching finishes – sand grey, onyx or matt white. Interior details include natural veneer organizers.

Vintage Style for a Tender Look

Carmen echoes the grace and style of a bygone era. This collection offers an integrated unik basin adorned with elegant faucets, beautifully complemented by its soft lines and refined shapes. Embracing the romanticism of the past while incorporating the latest innovations, meticulous attention to detail is reflected in the use of traditional materials. The robustness of wood complements an elegant marble countertop, while metallic knobs add a touch of refinement.

When it comes to storage, Carmen provides a choice of soft-close drawers or a combination of drawers and doors. For additional space, an auxiliary column is available with height-adjustable shelves, LED interior lighting and a tall glass door to enhance the overall aesthetic.

Textured Harmony

With its unique fresati wood finish, Horizon is a smart choice for any modern bathroom. The durable MDF with oak wood finish features a linear and textured pattern enhanced by a black aluminium handle and interior finish to add depth and distinction. The cast marble countertop in black or white harmonizes perfectly with over countertop basins to complement the overall look.

Beyond its aesthetics, Horizon prioritizes functionality and sustainability. The interior is equipped with a full extraction metallic soft-close drawer providing ample storage solutions for personal needs. By using materials like cast marble known for its high resistance to stains and scratches, this collection ensures long-lasting performance.

Striking Design

This striking contemporary design collection combines versatility with bold shapes and enduring style. Inspira's thin aluminium frame perfectly balances the use of Roca Fineceramic® washbasins in square, round and soft models. With terracotta, magnolia and white pine, Inspira introduces exclusive new colours to its range of finishes, taking your bathroom design to new heights. Inclusion of a bronze-coloured handle adds depth and elegance to the collection.

Flexibility and adaptability are key factors when it comes to bathroom design and Inspira meets these requirements. It offers a floating one-drawer unit that aligns asymmetrically with the basin, as well as more traditional two-drawer units. Metallic, full-extraction drawers are equipped with a space-saving siphon to enhance functionality and improve storage options. Additionally, it features a two-column model with two soft close doors.

Shaped by Architecture

Designed by Andreu Carulla, Tura takes inspiration from Barcelona's 20th-century iconic architecture and the influence of the Mediterranean light. Warm tones and textures blend with an innovative approach to light and shadow, volume and void. With its range of inviting colours including off-white, light noble grey and light terracotta, Tura's timeless style adapts to any bathroom space to transform the everyday experience.

Tura

Compact Solutions

The Tura collection features a range of products designed for smaller bathroom spaces. The same architectural volumes and dynamic shapes are applied on a compact scale to create beautiful bathrooms even in the smallest spaces. Tura is a versatile collection for everyone and every space. Sometimes the best things do come in small packages.

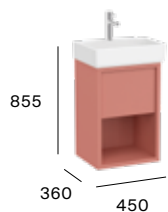

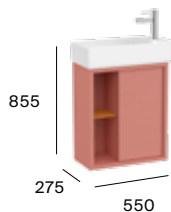

Designed for a lifetime

Sustainability is deeply ingrained in the Tura collection, evident in its thoughtful design and innovative production process. The collection embraces materials like recycled outdoor fabrics for the cushion, recycled felt and cork for the storage boxes and sustainably sourced wood for the furniture and bath tray. These materials were chosen for their durability and beauty, ensuring a long-lasting and environmentally conscious appeal.

The Difference is in the Details

A sleek and contemporary collection, Prisma embodies order and harmony in the bathroom. This collection offers various features that enhance organization, including a hidden tray in the drawer, perfect for storing smaller objects, and mobile dividers to help manage cosmetics. The asymmetric basin model features an integrated shelf, providing convenient storage for toothbrushes.

Available with one, two or four drawers of various sizes Prisma adapts to even the most demanding storage requirements and smallest spaces. For additional storage, the collection offers a matching column unit with a soft-close door.

Modern Sophistication

Tenue is a straightforward bathroom collection that embodies a modern and sophisticated design. Exuding an air of understated luxury, the collection features noble matt finishes, including night blue, pearl and onyx. The integrated handle blends seamlessly with the drawer providing a smooth and effortless experience.

Tenue features integrated Stonex® washbasins with added side space for personal items and products. The minimalist basin is not only durable and easy to clean but its matt white finish also creates a cohesive look with the furniture unit. The two-drawer units feature an anthracite interior finish and are thoughtfully designed to optimize storage of large or small items.

A Bathroom With an Edge

Aleyda is proof that beauty is not at odds with state-of-the-art technology. Its most distinctive feature, the unique side handle, adds personality and charm to the Aleyda collection. With five soothing finishes, it's easy to give any bathroom a fresh new look.

Drawer capacity can be tailored to suit individual needs with integrated organizers to store brushes, cosmetics and accessories. This collection offers a variety of sizes to find the ideal basin for every bathroom space. A two-drawer floating unit creates a sense of weightlessness in sharp contrast with a balanced three-drawer ensemble with legs.

Endlessly Versatile

Keeping essentials out of sight yet close at hand is the easiest way to streamline a daily routine. Striking a balance between form and function, The Gap guarantees a clutter-free bathroom offering attractive storage solutions for towels, beauty products and accessories. Available in both full-sized and compact versions, The Gap features a neutral palette and natural tones that will breathe new life into any bathroom space: glossy white for a sophisticated urban look or Nordic ash for a serene Scandinavian aesthetic.

For the Classic Among Us

The enduring appeal and timeless design of this iconic collection is cherished by customers worldwide.

The collection's standout feature lies in its spacious storage capacity and ability to accommodate large objects. The drawers, available in various heights, are arranged in sets of two, three, four, or six, catering to individual storage needs. For those who prioritize functionality, Victoria also offers the option of two doors, a hanger, and an optional towel rail. Timeless elegance and ample storage capabilities, Victoria effortlessly combines style and practicality.

The Essential Always Endures

Tenet is ideal for those who like to keep it simple, offering practicality and uncomplicated aesthetic. Designed to fit into any bathroom, this collection caters to large storage demands without compromising on quality or design. Its user-friendly features and a choice of up to five classic finishes ensure that this familiar aesthetic will endure the test of time.

Tenet offers various sizes and configurations, including options with two doors opening to internal shelves, or up to six drawers. A built-in organiser keeps things tidy, while the integrated washbasin reinforces the minimalist aesthetic. Available with a double basin for those who value their own space.

Practicality meets elegance

The Tenor Collection exudes sophistication with its sleek and refined design, presenting a minimalist appeal accentuated by a single drawer and an open bottom shelf. Designed to meet a variety of needs, this collection offers a range of sizes, configurations, and finishes. The addition of a drawer organiser enhances storage, while the collection is compatible with columns from the Extra collection, offering bespoke solutions for specific needs.

Choose from a range of sleek finishes, including glossy white, glossy grey, city oak, Nordic ash, and walnut, each adding to the collection's contemporary appeal. Enhance your space with the Tenor Collection, where simplicity seamlessly blends with functionality and style.

Small Unit. Big Personality

A compact, urban and contemporary unit, Mini is a unique unit offering maximum functionality while occupying minimal space. Perfectly suited to small bathrooms or guest toilets, its impeccable, pop-inspired design will enhance any intimate space with a fresh look.

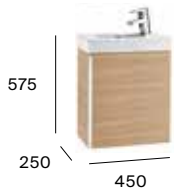

The integrated washbasin and side faucets make the most of the space, and the height of interior shelves can be adjusted to adapt to any organisational needs. Mini's mirror cabinets offer extra storage without taking up any additional space. Three statement finishes complete the look of this simple and youthful design.

A Perfect Package

Small but mighty, the Mini Pro collection packs a punch when it comes to design features and functionality. Ideal for small and stylish bathrooms, the one-door unit includes an interior shelf and a lower open shelf in matt black aluminium. The efficient design incorporates a unik ceramic basin and a matt black aluminium side handle and matching side hanger for convenient towel storage in a tight space.

Mini Pro is specifically designed to work in small and challenging spaces. The washbasin and door are reversible, allowing for flexible faucet installation on the left or right side depending on individual needs. Contemporary finishes include glossy white, concrete grey, matt black, birch and western oak giving the collection a modern touch.

Mirrors & Lighting

Decorative mirrors have become an essential feature of any bathroom. Besides boosting your grooming routine, adding a mirror is a great way of making a small bathroom seem bigger and brighter. Our collection features the latest innovations and finest quality glass to guarantee comfort, efficiency and durability. Choose from an array of stunning designs in a variety of sizes, many of which offer integrated LED lighting so you can appreciate the finer details of your reflection with greater precision.

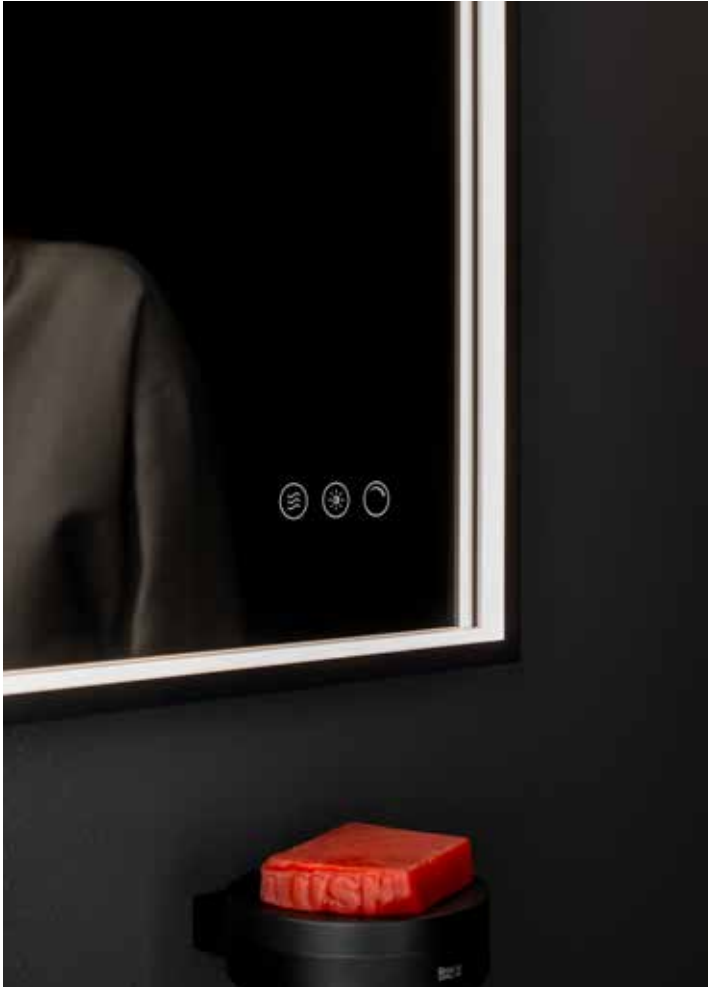

Behind a large reflective surface you can incorporate a surprising amount of extra storage. Easy to install and made with durable materials, our cabinet mirrors come in a range of neutral finishes to match any style.

Whether you're applying makeup, shaving or looking for gentle illumination by night, you're sure to find the right choice for your bathroom in our range of direct, diffuse and ambient lighting solutions.

Perfection Reflected

Mirai transforms daily rituals with precision lighting. Surrounded by a sleek matt black aluminium frame, it features direct LED lighting with adjustable temperature and intensity to create the perfect atmosphere for every moment, and a built-in demister for a clear reflection at all times.

Lighting for Any Mood

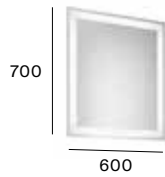

Available in a rectangular or circular design, Iridia features adjustable perimeter lighting with touch sensor technology for effortless customised bathroom lighting. Choose a soft glow for a soothing ambiance or opt for high intensity to achieve a uniform reflection. Additionally, a built-in demister clears steam after a hot shower.

Framed Vision

Luna Frame Ambient mirrors come in round, rectangular, and oval shapes, making them suitable for any space. The mirrors have rounded edges and corners for a smooth finish, and a sleek metallic frame finished in sophisticated matt black, which exudes modern elegance.

They also feature linear LED lighting that emits a warm, indirect light positioned behind and around the mirror to create a subtle wall lighting effect. The illumination is complemented by an illuminated Roca logo, and the mirrors are designed to complement other lighting elements in the basin area.

Our contribution to a more sustainable future for all

Our commitment to sustainable growth and development prioritises the wellbeing of people and the planet. This commitment is reflected in our efforts to foster strong societal relationships and support communities, as well as initiatives in decarbonisation, eco-design and circularity. We create high-quality, durable products by considering their entire lifecycle, from carefully selected materials to optimised transport methods. Our aim is to combine the needs of society with environmental responsibility to deliver solutions that benefit everyone.

Products

Dual-flush mechanism. Dual flush cisterns offer adaptable water use, ensuring efficiency for different flushing requirements while reducing overall water consumption.

Smart shower. Smart shower solutions allow programmable shower options and monitor water usage to encourage responsible and sustainable use.

W+W. Integrating the washbasin and toilet into a single piece, this internationally acclaimed design reuses water from the washbasin to flush the toilet.

Certificates. Many of our products are made from FSC®-certified wood.

Our water-using products carry the Unified Water Label water efficiency labelling system to help consumers understand the water and energy use in these products.

Technologies

Cold Start. Cold Start technology prevents unnecessary boiler activation by defaulting to a cold water start position. This innovation saves energy and reduces emissions released into the atmosphere.

Aerators. Faucet spouts with aerators that mix air with water help to reduce the flow rate while maintaining the same functionality and comfort.

Thermostatic faucets and fittings. Quick Reaction® technology delivers desired temperatures rapidly and an eco-stop button contribute to water conservation in showers.

Materials

Stonex®. An improved formula for Stonex® baths uses recycled PET bottles, reducing the carbon footprint by up to 25%.

Initiatives

Pioneering sustainable ceramics

Our recent partnership with Keramischer Ofenbau marks a significant step towards sustainability as we launched the world's first electric tunnel kiln for the production of sanitaryware. This pioneering initiative positions us as a global leader in the operation of a net-zero sanitaryware manufacturing facility, setting a new standard for the industry.

Through collaboration and innovative technology, we aim to lead the way to a sustainable future for the ceramics industry.

We Are Water

For over a decade, the We Are Water Foundation has promoted global hygiene and sustainable water management, improving access to clean water and sanitation in disadvantaged regions while raising awareness and providing training.

Commitment

Sustainable and Ethical Commitment

Roca Group is committed to implementing responsible business practices that prioritise environmental protection, social responsibility and ethical behaviour.

EcoVadis Platinum Medal

recognises Roca Group's outstanding sustainability performance.

As a proud member of the **United Nations Global Compact**, sustainability forms an integral part of our commitment and we work in line with the targets of the **Sustainable Development Goals**.
